ADDITIONAL INFORMATION

WORDPRESS WEBSITE
Ascension Roofing Colorado

- Designed in Figma and built with Bricks Builder in WordPress, leveraging plugins like ACSS, Frames, ACF, RankMath SEO, and WS Form.
- Implemented scalable architecture using custom post types and dynamic service area pages to enhance SEO.
- Led all phases of the project including development, hosting, SEO optimization, and maintenance.

SHOPIFY WEBSITE
Florida Fungi Farm

- Developed a fully responsive eCommerce site for gourmet and medicinal mushrooms using Shopify with custom Liquid code.
- Managed end-to-end delivery: hosting, design, development, SEO strategy, and ongoing maintenance.
- Launched a professional online storefront that enabled the client to start a successful mushroom business in Florida.

PERSONAL PORTFOLIO
3D Portfolio

- Designed and developed a front-end web developer portfolio, showcasing clean design with interactive 3D elements using Three.js, animated with Framer-motion, and styled with Tailwind CSS for a minimalist touch.
- Implemented a responsive and mobile-friendly interface, utilizing Vite.js to streamline and accelerate the development process.
